## CITY OF TORONTO

### SECOND SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. Notwithstanding any general or special Act or agreements validated by statute or entered into under the authority of any statute, the City shall not be under any obligation to make any payment towards the maintenance and upkeep of the Art Gallery of Ontario. This section of the proposed legislation, if enacted, would be effective as of the first day of January, 1975.

2. That the City may by by-law provide at its own expense for the clearing away and removing of snow and ice from those portions of walkways between the public sidewalks on highways and the lowest step of the principal place of entrance of buildings owned or occupied by any class or classes of persons.

3. That the City may by by-law require the owners of buildings connected to the sewage works of the City by means of common drain connections to repair such connections where they are for any reason blocked, and to further provide that if owners of buildings affected by such a by-law fail to make such repairs within 10 days after being notified by the City to do so, the City may make the required repairs at the expense of the owners, and for that purpose the City or anyone acting on its behalf may enter upon such property and neither the City nor anyone acting on its behalf shall be liable by reason of anything done by or on behalf of the City. The proposed legislation provides for an ex parte application to a provincial court judge for an order authorizing entry on property to make the necessary repairs where entry has been denied. Provision is made for the passing of by-laws providing for the apportionment of costs among owners of the cost of the drain repairs made by the City. The proposed legislation will also provide for the making of loans by the City to an owner who has been notified to make drain repairs under this section, to pay for the whole or any part of the cost of making such repairs, and for the collection of the amount of such loan and interest thereon in like manner as municipal real property taxes. The proposed legislation will not apply where all of the buildings connected to the sewage works of the City by means of a common drain are in common ownership.

4. That the City may with the consent of the Minister of Housing adopt a policy statement establishing criteria for the sharing of housing accommodation by adults and children and thereafter the City may pass by-laws prohibiting any person from discriminating against another person in respect to any term or condition of the occupancy of housing accommodation because that person has children who would be sharing such housing accommodation with him, where occupancy thereof by adults and children is deemed appropriate thereto by the said policy statement. Any such by-law may impose a penalty of not more than \$1,000.00 for a breach thereof.

5. That the City may enact land use control by-laws in which higher residential densities are permitted on condition that the owner agree with the City to provide a proportion of the units for assisted housing purposes and empowering the City to enter into agreements for the provision of such housing and ensuring that such agreements are binding on subsequent purchasers.

6. That for the purposes of a housing development, as defined, the Corporation may acquire and hold land with or without buildings, prepare such land, rehabilitate, convert, repair or otherwise improve such buildings, construct new buildings, manage, maintain or operate any such buildings, and may sell, lease or otherwise dispose of for nominal consideration or otherwise any such land or buildings. The proposed legislation will also

provide that the City may enter into a partnership or any other arrangement with any person or governmental authority respecting any of the City's powers pertaining to a housing development, but no land acquired by the City by means of expropriation either before or after the legislation comes into force may be used for a housing development in respect of which the City has entered into any such partnership or other arrangement. In the proposed legislation, "housing development" will be defined so as to mean any project or undertaking designed to provide housing accommodation in the municipality and includes, without limiting the generality of the foregoing, any public space or recreational, institutional, commercial or industrial facilities or buildings, as in the opinion of the council of the Corporation may be reasonably necessary.

### CITY OF TORONTO

#### THIRD SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. That an alderman may resign from the City of Toronto Executive Committee without losing his seat in council.

2. That the provision respecting the term of office of members of the City of Toronto Executive Committee, expressed to be three years in *The City of Toronto Act, 1968-69 (No., 2)*, be amended so as to conform with the provisions of *The Municipality of Metropolitan Toronto Act* (two years) which prevails.

3. That on the first day of January, 1976, there shall be implemented and enforced, in the City of Toronto, a program designed to establish rents permitted to be charged for all residential buildings and residential units, as defined. The proposed legislation would provide that the City shall appoint one or more administrators and a Landlord-Tenant Tribunal. Such program would be based on the principle that rents prevailing as of June 1, 1974 should be permitted to be increased by the rental administrator only in accordance with the provisions of the legislation respecting the landlord's increased operating costs. There would be further

provision enabling the rental administrator to decrease the rent charged as of June 1, 1974 where it is established that the rent charged as of that day is unjustified for the reasons set out in the legislation. The legislation will also contain a system of appeals from the rental administrator. There will also be a mandatory duty imposed on all landlords to file annually as set out in the legislation a statement of revenue and expenses for the residential building and residential unit in the form prescribed by the council. The proposed legislation will also prohibit evictions of any tenant or the withholding of any service or facilities from any tenant or the interference with the quiet enjoyment of the rented premises by a tenant because that tenant has done anything such tenant is permitted to do under the legislation. The proposed legislation will provide for penalties for various breaches of the legislation. The City will be permitted to pass by-laws exempting any class or classes or residential unit or residential building from the legislation.

4. Notwithstanding section 6 of the Act, where the Minister is of the opinion that the financial resources available to a municipality, after payment to the municipality of the maximum amount of the capital grant prescribed under that section would be insufficient to pay for a building project or for the municipality's share of a building project under an agreement for the joint establishment of the community recreation centre, as the case may be, without placing an undue financial burden on the municipality, the maximum amount of the grant that may be paid shall not exceed the lesser of \$150,000 or 50 per cent of the cost of the building project or of the value of the municipality's contribution, as the case may be. O. Reg. 236/75, s. 4.

5. Notwithstanding section 6 of the Act, where special facilities approved by the Minister for handicapped persons that are not required under *The Building Code Act, 1974* are provided in a community recreation centre, the amount of the grant payable under subsection 1 or 2 of section 6 of the Act for the community recreation centre may exceed the lesser of \$75,000 or 25 per cent of the cost of the building project, or of the value of the contribution of the applicant to the building project, as the case may be, by an amount equal to the cost, approved by the Minister, of the special facilities. 6.—(1) Before commencing a building project or at such other time before payment of the grant as the Minister may approve, an applicant shall file with the Minister,

(a) plans and specifications prepared by an architect or professional engineer or, where the Minister approves, a sketch drawn to scale, of the community recreation centre showing,

(b) evidence satisfactory to the Minister that the applicant is solely, or jointly with one or more other persons or organizations,

(i) the owner or lessee of, or

(ii) pursuant to an agreement in writing, otherwise legally entitled to use,

the property comprising the community recreation centre for a fixed and continuous period of time that, in the opinion of the Minister, justifies payment of the grant.

(2) Where the plans and specifications or sketch, as the case may be, show that any part of a building project is used or will be used for a purpose not included in section 2, the Minister may require the applicant to furnish further particulars about the use or proposed use including the extent of the use and the name of any organization or persons engaging or proposed to engage in the use. O. Reg. 236/75, s. 6.

7.—(1) An application for payment of a capital grant shall be made to the Minister in a form prescribed by the Minister within three years after the expenditure by the applicant of the amount or amounts applied for.

(2) An applicant shall file with the Minister, together with his application for a grant,

(a) a statement in a form prescribed by the Minister showing,

(i) the actual or estimated cost of the building project,

(c) where the applicant is an approved corporation, a board or a band, a copy of the by-law or resolution providing for the establishment of the community recreation centre.

(3) The Minister may require an applicant who files a statement under clause a of subsection 2 to furnish such further particulars as the Minister deems necessary to establish the actual cost of the building project and may require a valuation of the building project to be made by an appraiser with qualifications acceptable to the Minister. O. Reg. 236/75, s. 7.

8. Where a municipality, board, band or approved corporation changes the site or use of, or structurally alters, sells, leases, mortgages or otherwise disposes of an interest in a community recreation centre for which payment of a capital grant has been made, without the approval in writing of the Minister, or where such approval has been given, is in default of any condition for repayment imposed under section 10 of the Act, the whole or any part of the grant may be recovered as a debt due to the Crown in right of Ontario from the municipality, board, band or approved corporation, as the case may be,

- (a) out of moneys payable by Ontario to the municipality, board, band or approved corporation, under the authority of any Act; or
- (b) by proceedings in any court of competent jurisdiction. O. Reg. 236/75, s. 8.

(2) The total payment of a capital grant for a building project shall not be made until,

- (a) an architect or professional engineer certifies that,
  - (i) the building project has been completed in accordance with the plans and specifications or sketch, as the case may be, thereof submitted to the Minister under subsection 1 of section 6, and
  - (ii) the building project is ready to be used as a community recreation centre; and
- (b) the applicant for the grant submits a report stating,
  - (i) the actual cost of the building project,
  - (ii) that the total of the unpaid accounts applicable to the building project does not exceed the amount of the grant remaining to be paid,

- (iii) that the amount of the grant remaining to be paid will be applied first to the payment of the unpaid accounts referred to in subclause ii, and
- (iv) that all refundable sales tax has been taken into account. O. Reg. 236/75, s. 9.

10. Regulation 93 of Revised Regulations of Ontario, 1970 and Ontario Regulation 380/72 are revoked. O. Reg. 236/75, s. 10.

### CITY OF TORONTO

#### SECOND SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. Notwithstanding any general or special Act or agreements validated by statute or entered into under the authority of any statute, the City shall not be under any obligation to make any payment towards the maintenance and upkeep of the Art Gallery of Ontario. This section of the proposed legislation, if enacted, would be effective as of the first day of January, 1975.

2. That the City may by by-law provide at its own expense for the clearing away and removing of snow and ice by means of those portions of walkways between the public sidewalks on highways and the lowest step of the principal place of entrance of buildings owned or occupied by any class or classes of persons.

3. That the City may by by-law require the owners of buildings connected to the sewage works of the City by means of common drain connections to repair such connections where they are for any reason blocked, and to further provide that if owners of buildings affected by such a by-law fail to make such repairs within 10 days after being notified by the City to do so, the City may make the required repairs at the expense of the owners, and for that purpose the City or anyone acting on its behalf may enter upon such property and neither the City nor anyone acting on its behalf shall be liable by reason of anything done by or on behalf of the City. The proposed legislation provides for an ex parte application to a provincial court judge

for an order authorizing entry on property to make the necessary repairs where entry has been denied. Provision is made for the passing of by-laws providing for the apportionment of costs among owners of the cost of the drain repairs made by the City. The proposed legislation will also provide for the making of loans by the City to an owner who has been notified to make drain repairs under this section, to pay for the whole or any part of the cost of making such repairs, and for the collection of the amount of such loan and interest thereon in like manner as municipal real property taxes. The proposed legislation will not apply where all of the buildings connected to the sewage works of the City by means of a common drain are in common ownership.

4. That the City may with the consent of the Minister of Housing adopt a policy statement establishing criteria for the sharing of housing accommodation by adults and children and thereafter the City may pass by-laws prohibiting any person from discriminating against another person in respect to any term or condition of the occupancy of housing accommodation because that person has children who would be sharing such housing accommodation with him, where occupancy thereof by adults and children is deemed appropriate thereto by the said policy statement. Any such by-law may impose a penalty of not more than \$1,000.00 for a breach thereof.

5. That the City may enact land use control by-laws in which higher residential densities are permitted on condition that the owner agree with the City to provide a proportion of the units for assisted housing purposes and empowering the City to enter into agreements for the provision of such housing and ensuring that such agreements are binding on subsequent purchasers.

6. That for the purposes of a housing development, as defined, the Corporation may acquire and hold land with or without buildings, prepare such land, rehabilitate, convert, repair or otherwise improve such buildings, construct new buildings, manage, maintain or operate any such buildings, and may sell, lease or otherwise dispose of for nominal consideration or otherwise any such land or buildings. The proposed legislation will also provide that the City may enter into a partnership or any other arrangement with any person or governmental authority respecting any of the City's powers pertaining to a housing development, but no land acquired by the City by means of expropriation either before or after the legislation comes into force may be used for a housing development in respect of which the City has entered into any such partnership or other arrangement. In the proposed legislation, "housing development" will be defined so as to mean any project or undertaking designed to provide housing accommodation in the municipality and includes, without limiting the generality of the foregoing, any public space or recreational, institutional, commercial or industrial

facilities or buildings, as in the opinion of the council of the Corporation may be reasonably necessary.

## CITY OF TORONTO

### THIRD SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. That an alderman may resign from the City of Toronto Executive Committee without losing his seat in council.

2. That the provision respecting the term of office of members of the City of Toronto Executive Committee, expressed to be three years in *The City of Toronto Act, 1968-69 (No. 2)*, be amended so as to conform with the provisions of *The Municipality of Metropolitan Toronto Act* (two years) which prevails.

3. That on the first day of January, 1976, there shall be implemented and enforced, in the City of Toronto, a program designed to establish rents permitted to be charged for all residential buildings and residential units, as defined. The proposed legislation would provide that the City shall appoint one or more administrators and a Landlord-Tenant Tribunal. Such program would be based on the principle that rents prevailing as of June 1, 1974 should be permitted to be increased by the rental administrator only in accordance with the provisions of the legislation respecting the landlord's increased operating costs. There would be further provision enabling the rental administrator to decrease the rent charged as of June 1, 1974 where it is established that the rent charged as of that day is unjustified for the reasons set out in the legislation. The legislation will also contain a system of appeals from the rental administrator. There will also be a mandatory duty imposed on all landlords to file annually as set out in the legislation a statement of revenue and expenses for the residential building and residential unit in the form prescribed by the council. The proposed legislation will also prohibit evictions of any tenant or the withholding of any service or facilities from any tenant or the interference with the quiet enjoyment of the rented premises by a tenant because that tenant has done anything such tenant is permitted to do under the legislation. The proposed legislation will provide for penalties for various breaches of the legislation. The City will be per-

mitted to pass by-laws exempting any class or classes or residential unit or residential building from the legislation.

### CITY OF TORONTO

#### THIRD SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. That an alderman may resign from the City of Toronto Executive Committee without losing his seat in council.

2. That the provision respecting the term of office of members of the City of Toronto Executive Committee, expressed to be three years in *The City of Toronto Act, 1968-69 (No. 2)*, be amended so as to conform with the provisions of *The Municipality of Metropolitan Toronto Act* (two years) which prevails.

3. That on the first day of January, 1976, there shall be implemented and enforced, in the City of Toronto, a program designed to establish rents permitted to be charged for all residential buildings and residential units, as defined. The proposed legislation would provide that the City shall appoint one or more administrators and a Landlord-Tenant Tribunal. Such program would be based on the principle that rents prevailing as of June 1, 1974 should be permitted to be increased by the rental administrator only in accordance with the provisions of the legislation respecting the landlord's increased operating costs. There would be further provision enabling the rental administrator to decrease the rent charged as of June 1, 1974 where it is established that the rent charged as of that day is unjustified for the reasons set out in the legislation. The legislation will also contain a system of appeals from the rental administrator. There will also be a mandatory duty imposed on

all landlords to file annually as set out in the legislation a statement of revenue and expenses for the residential building and residential unit in the form prescribed by the council. The proposed legislation will also prohibit evictions of any tenant or the withholding of any service or facilities from any tenant or the interference with the quiet enjoyment of the rented premises by a tenant because that tenant has done anything such tenant is permitted to do under the legislation. The proposed legislation will provide for penalties for various breaches of the legislation. The City will be permitted to pass by-laws exempting any class or classes or residential unit or residential building from the legislation.

City Solicitor,

## Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

- (c) such other means as the Board may deem just.

The grounds upon which this Notice is based are as follows:

1. There was insufficient evidence to establish public necessity and convenience.
2. The presiding panel failed to adequately consider the past operations of the said Applicant and failed to place sufficient weight on same.
3. The Board's decision granted authority that far exceeded the evidence adduced on the applications.
4. The presiding panel failed to adequately consider the severe effect that the granting of these certificates would have on the Respondents and other properly licensed carriers.
5. There was no evidence that the existing licensed carriers had failed to meet the reasonable demands of the shipping public.
6. The Board's decisions are contrary to sound licensing principles.
7. And upon such further and other grounds as may be deemed necessary, and has fixed Monday, the 9th day of June, 1975, at its Chambers, Britannica House, 151 Bloor Street, West, 10th Floor, Toronto, Ontario, at 10 a.m. (E.D.S.T) for that purpose.

### CITY OF TORONTO

#### THIRD SUPPLEMENTARY NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of The Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, at its present session, for Special Legislation to provide:

1. That an alderman may resign from the City of Toronto Executive Committee without losing his seat in council.

2. That the provision respecting the term of office of members of the City of Toronto Executive Committee, expressed to be three years in *The*

*City of Toronto Act, 1968-69 (No. 2)*, be amended so as to conform with the provisions of *The Municipality of Metropolitan Toronto Act* (two years) which prevails.

3. That on the first day of January, 1976, there shall be implemented and enforced, in the City of Toronto, a program designed to establish rents permitted to be charged for all residential buildings and residential units, as defined. The proposed legislation would provide that the City shall appoint one or more administrators and a Landlord-Tenant Tribunal. Such program would be based on the principle that rents prevailing as of June 1, 1974 should be permitted to be increased by the rental administrator only in accordance with the provisions of the legislation respecting the landlord's increased operating costs. There would be further provision enabling the rental administrator to decrease the rent charged as of June 1, 1974 where it is established that the rent charged as of that day is unjustified for the reasons set out in the legislation. The legislation will also contain a system of appeals from the rental administrator. There will also be a mandatory duty imposed on all landlords to file annually as set out in the legislation a statement of revenue and expenses for the residential building and residential unit in the form prescribed by the council. The proposed legislation will also prohibit evictions of any tenant or the withholding of any service or facilities from any tenant or the interference with the quiet enjoyment of the rented premises by a tenant because that tenant has done anything such tenant is permitted to do under the legislation. The proposed legislation will provide for penalties for various breaches of the legislation. The City will be permitted to pass by-laws exempting any class or classes or residential unit or residential building from the legislation.

W. R. CALLOW, Q.C.,  
City Solicitor,  
City Hall,  
Toronto, Ontario,

#### NOTE

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracycline drugs, therefore, should not be used in this age group unless other drugs are not likely to be effective or are contraindicated.

8. Form 2 of the said Regulation, as amended by section 9 of Ontario Regulation 115/73, section 2 of Ontario Regulation 259/73 and section 10 of Ontario Regulation 396/74, is revoked and the following substituted therefor:

### Form 2

#### *The Crop Insurance Act (Ontario)*

#### CORN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for corn under The Ontario Crop Insurance Plan for Corn, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover corn.

#### HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to corn shall be harvested as corn silage or grain corn unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose;
- (b) the abandonment or destruction of the insured crop or any part thereof; or
- (c) the harvest of any insured acreage prior to the 5th day of September in any crop year.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

#### VARIETIES OF CORN

2. Except as otherwise determined by the Commission, acreage may be seeded to any licensed variety of corn offered for sale in Ontario.

#### EVALUATION OF LOSS

3.—(1) Where,

- (a) the insured person so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is listed in the Table and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

(a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;

(b) that is untilled and was not cropped in the previous year; or

(c) that, in the opinion of the Commission, is not insurable.

4.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to corn, the contract of insurance shall continue to apply to such reseeded acreage.

5.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price.

#### FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

6. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 3, 4 and 5 applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 15 shall be reduced by the amount obtained by multiplying such excess by the established price.

7. Notwithstanding paragraph 6, where at any time after the 15th day of June, two acres or more of the insured acreage is totally destroyed by hail or tornado, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the acreage so destroyed and, in such case, the amount of loss shall be calculated by multiplying the guaranteed production for the released acreage by the established price.

#### INCORRECT ACREAGE IN FINAL ACREAGE REPORT

8.—(1) Where the actual seeded acreage of corn in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of corn in a crop year exceeds the seeded acreage declared on the final acreage report, the total guaranteed production per acre shall remain unchanged.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to soybeans, the contract of insurance shall continue to apply to such reseeded acreage.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per bushel.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

FINAL ADJUSTMENT OF LOSS FOR  
TOTAL INSURED ACREAGE

5. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 2, 3 and 4 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage.

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 4 shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

6. Notwithstanding paragraph 5, where at any time after the 20th day of June, two acres or more of the insured acreage is totally destroyed by hail or tornado, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the acreage so destroyed and, in such case, the amount of loss shall be calculated by multiplying the guaranteed production for the released acreage by the established price per bushel.

INCORRECT ACREAGE IN FINAL  
ACREAGE REPORT

7.—(1) Where the actual seeded acreage of soybeans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of soybeans in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

O. Reg. 346/75, s. 9.

10. Form 2 of the said Regulation is revoked and the following substituted therefor:

### Form 2

#### *The Crop Insurance Act (Ontario)*

##### WHITE BEAN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for white beans under The Ontario Crop Insurance Plan for White Beans, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover white beans.

##### HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to white beans in a crop year shall be harvested as white beans unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

##### EVALUATION OF LOSS

2.—(1) Where,

- (a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is listed in the Table and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

3.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to white beans, the contract of insurance shall continue to apply to such reseeded acreage.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS  
FOR TOTAL INSURED ACREAGE

5. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 2, 3 and 4 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 4 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

6. Notwithstanding paragraph 5, where at any time after the 30th day of June, two acres or more of the insured acreage is totally destroyed by hail or tornado, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the acreage so destroyed and, in such case, the amount of loss shall be calculated by multiplying the guaranteed production for the released acreage by the established price per pound.

INCORRECT ACREAGE IN FINAL  
ACREAGE REPORT

7.—(1) Where the actual seeded acreage of white beans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of white beans in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

(2) Paragraph 2 of the said Form 1 is revoked.

(3) Paragraph 3 of the said Form 1, as remade by subsection 1 of section 8 of Ontario Regulation 360/74, is revoked.

(4) The heading preceding paragraph 4 of the said Form 1, as made by subsection 2 of section 8 of Ontario Regulation 360/74, is revoked and the following substituted therefor:

#### EVALUATION OF LOSS

(5) Subparagraph 1 of the said paragraph 3a is revoked and the following substituted therefor:

(1) Where,

(a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and

- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

- (6) Clause *b* of subparagraph 6 of the said paragraph 3*a* is revoked and the following substituted therefor:

- (b) that is untilled and was not cropped in the previous year; or

- (c) that, in the opinion of the Commission, is not insurable.

- (7) The heading preceding paragraph 4 of the said Form 1 and the said paragraph 4, as amended by subsection 3 of section 8 of Ontario Regulation 360/74, are revoked and the following substituted therefor:

4.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to coloured beans, the contract of insurance shall continue to apply to such reseeded acreage.

- (8) The heading preceding paragraph 5 of the said Form 1 and the said paragraph 5, as amended by subsections 4 and 5 of section 8 of Ontario Regulation 360/74, are revoked and the following substituted therefor:

5.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with sub-

paragraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

- (9) The heading preceding paragraph 7 of the said Form 1 and the said paragraph 7, as remade by subsection 7 of section 8 of Ontario Regulation 360/74, are revoked and the following substituted therefor:

#### FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

7. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 3*a*, 4 and 5 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 5 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

O. Reg. 348/75, s. 9.

10. Form 2 of the said Regulation is revoked and the following substituted therefor:

### Form 2

#### *The Crop Insurance Act (Ontario)*

#### SPRING GRAIN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for spring grain under The Ontario Crop Insurance Plan for Spring Grain, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover spring grain.

#### HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to spring grain in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

#### EVALUATION OF LOSS

2. For the purposes of determining the loss in production of spring grain in a crop year and the indemnity payable therefor, the actual production of all harvested acreage of oats, barley, spring wheat and mixed grain shall be combined, and in no case shall the production of oats, barley, spring wheat or mixed grain be taken into account separately.

3.—(1) Where,

- (a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is not listed in the Table, and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

4.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to spring grain, the contract of insurance shall continue to apply to such reseeded acreage.

5.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR  
TOTAL INSURED ACREAGE

6. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 3, 4 and 5 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 5 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE  
REPORT

7.—(1) Where the actual seeded acreage of spring grain in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of spring grain in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

**NOTE**  
The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracycline drugs, therefore, should not be used in this age group unless other drugs are not likely to be effective or are contraindicated.

- (a) Any client who has made payment for travel services to a Participant in Ontario and who has not received the travel services contracted for, shall be entitled to claim for the refund of moneys so paid to the extent only that such services are not so provided and after he has made a demand for payment on a Participant which the Participant has refused without legal justification to pay or is unable to pay by reason of bankruptcy or insolvency.
- (b) No client shall have any claim for the refund of any money paid by him to a Participant where he was informed, prior to the making of his payment to the Participant, that the money paid by him was as a non-refundable deposit or a reasonable service charge.

### Section 8.05

Subject to all rights and obligations pursuant to the provisions of Article VII hereof, upon the expiration of two years notice given pursuant to Section 8.01 and with the approval of the Board and the Registrar such Participant shall cease to be a Participant, his participation in the Trust Fund and Trust Plan shall cease and he shall no longer be subject to the Plan or to any further obligation under this Agreement.

## Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

## Form 2

### *The Crop Insurance Act (Ontario)*

#### POTATO ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for potatoes under The Ontario Crop Insurance Plan for Potatoes, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder:

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)*, and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover potatoes.

#### HARVESTING OF PLANTED ACREAGE

1.—(1) All acreage planted to potatoes in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose;
- (b) the abandonment or destruction of the insured crop or any part thereof; or
- (c) the digging of the insured crop or any part thereof prior to the earliest date prescribed by the plan.

(2) Where the harvesting of any planted acreage is not completed on the final date for harvesting prescribed by the plan, the insured person shall forthwith notify the Commission in writing.

(3) Where the insured person fails to notify the Commission in accordance with subparagraph 2, no indemnity shall be paid in respect of the unharvested acreage.

(4) Where, with the consent of the Commission under clause *c* of subparagraph 1, any planted acreage is dug before the earliest date for harvesting prescribed by the plan, the Commission shall determine the potential production of such acreage and such potential production,

(a) shall be deemed to be not less than the average farm yield for such acreage; and

(b) shall be taken into account in the final adjustment of loss.

#### STAGE 1

2.—(1) Stage 1 comprises the period from the date on which the planting of acreage to potatoes is completed to and including the 15th day of June.

(2) Where three acres or more of the insured crop is lost or damaged in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) the replanting of the damaged acreage provided that the replanting is completed not later than the 15th day of June; or

(b) the abandonment or destruction of the insured crop on such damaged acreage and in such case the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is replanted to potatoes in accordance with clause *a* of subparagraph 2, the Commission shall pay an indemnity of \$100 for each acre replanted and the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is replanted to another crop, the Commission shall pay an indemnity of \$100 per acre and the contract of insurance shall terminate with respect to such acreage.

(5) Where the damaged acreage is destroyed or abandoned in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying,

(a) 50 per cent of the guaranteed production for the damaged acreage; or

(b) the difference between the guaranteed production and the potential production determined under subparagraph 2 for the damaged acreage,

whichever is the lesser by the established price per hundredweight.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

(7) Any indemnities payable under this paragraph are subject to the following conditions:

1. For the first year in which the contract is in force, 5 per cent of the insured acreage shall be deductible.

2. Following the first and each successive no claim year, the deductible acreage shall be decreased by 1 per cent.

3. Following the first or any subsequent claim year, the deductible shall revert immediately to the maximum of 5 per cent of the insured acreage.

#### STAGE 2

3.—(1) Stage 2 commences on the 16th day of June and for any part of the planted acreage ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

(a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or

(b) the harvesting of any planted acreage is not completed on the date determined therefor.

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production

for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the price per hundredweight.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual production of the acreage harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per hundredweight.

#### FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

4.—(1) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1 and Stage 2 loss calculations applicable to such acreage, but, subject to subparagraph 2, where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of,
  - (i) any unharvested acreage, and
  - (ii) any acreage dug before the earliest date for harvesting prescribed by the plan,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per hundredweight.

(2) No more than one indemnity payment with respect to the same planted acreage shall be paid in any one of the Stages.

(3) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss not insured against, and the indemnity payable by the Commission under the contract shall be reduced accordingly.

#### DAMAGE AFTER HARVEST

5.—(1) No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after harvest and, subject to subparagraph 2, no indemnity shall be paid with respect to potatoes in storage.

(2) Where, as a result of frost damage prior to harvest, the insured crop or any part thereof breaks down in storage, the Commission shall pay an indemnity therefor provided,

- (a) notice of frost damage was received by the Commission prior to harvest; and
- (b) the damaged potatoes are clearly identified in storage to the satisfaction of the Commission.

#### MEASUREMENT OF YIELD

6. The Commission may measure the yield of the insured crop either before or after harvest by such means as it deems proper.

#### INCORRECT ACREAGE IN FINAL ACREAGE REPORT

7.—(1) Where the actual planted acreage of potatoes in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual planted acreage of potatoes in a crop year exceeds the planted acreage declared on the final acreage report, the guaranteed production shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

#### STAGE 2

5.—(1) Stage 2 commences at noon on the 20th day of June in the crop year and ends with the completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the guaranteed production for the damaged acreage by the established price per pound.

(4) Where the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

#### SECTION B

##### STAGE 1

6.—(1) Stage 1 comprises the period from the commencement of planting or noon of the 20th day of May, whichever is the later, to noon of the 20th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission upon application therefor in writing by the insured person may consent in writing to,

- (a) one replanting of the damaged acreage and, in such case, the replanting shall be completed not later than the 20th day of June in the crop year or not later than such other date as may be determined from time to time by the Commission; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is in excess of three acres and is replanted to the insured crop in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage and the Commission shall pay to the insured person a supplementary benefit of \$40 per acre replanted.

(4) The replanting referred to in this paragraph may not be carried out by hand.

(5) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 50 per cent of the guaranteed production for the damaged acreage by the established price per pound.

(6) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 5 shall not be taken into account in the final adjustment of loss.

(7) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 5 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

STAGE 2

7.—(1) Stage 2 commences at noon on the 20th day of June in the crop year and ends with the completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the guaranteed production for the damaged acreage by the established price per pound.

(4) Where the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

8. Where the actual yield of any crop insured under Section B is reduced by hail damage below the average farm yield, the Commission may adjust the actual yield and in such case the actual yield to count may be calculated according to the following formula:

$$\frac{(\text{percentage of average farm yield attained} - 36)}{64}$$

FINAL ADJUSTMENT OF LOSS FOR  
TOTAL PLANTED ACREAGE

9. The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Section A and Section B loss calculations applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

VARIATION IN PLANTED ACREAGE

10. Where the actual planted acreage of the insured crop is less than the acreage stated in the application, the insured person shall, not later than the 1st day of August, notify the Commission in writing and the total guaranteed production and the maximum amount of indemnity shall be reduced proportionately.
